Payment method on file: 4111 1111 1111 1111
Emergency contact: Mark Doe - (415) 555-0142 - mark.doe@example.net

Admitted: 2026-08-10 Discharged: 2026-08-18
Attending physician: Dr. Evelyn Reed
Primary diagnosis: Acute bronchitis (J20.9)
Secondary diagnosis: Type 2 diabetes, well controlled (E11.9)

Summary of Stay

Ms. Doe was admitted on 2026-08-10 with a productive cough, wheezing, and shortness of breath. Chest imaging showed changes consistent with acute bronchitis. She responded well to inhaled bronchodilators and oral fluids and was discharged on 2026-08-18 in stable condition.

Discharge Medications

- Amoxicillin 500 mg: one capsule by mouth three times daily for 7 days.
- Metformin 1000 mg: one tablet twice daily with meals.
- Albuterol 90 mcg HFA inhaler: two puffs every 4 hours as needed.

Discharge Instructions

Call the office or emergency services immediately for chest pain, difficulty breathing, facial swelling, or a fever above 101.5F. Complete all prescribed medications even if you feel better.

Follow-Up Appointment

A follow-up visit is scheduled for 2026-08-25 at 09:30 with Dr. Marcus Chen
